PROPOSED TALKING POINTS FOR SECNAV/CNO MEETING

I. NFAC/Navy relations good overall, but problem in ASW, e.g.

[]

II. Need fuller exchange

- A. NFAC only place where can pull together everything
 - vital to national security
- B. NFAC provides a different viewpoint to you
 - decrease risk you'll be caught short because of one mind-set
- C. NFAC imprimatur provides additional prestige when Navy must get outside support, e.g.
 - CIA support with respect to doubts on SSBN contact validity

III. Propose we set up

- A. Joint study on collection against Soviet non-acoustic ASW
- B. Exchange NOSIC/NISC & NFAC middle grade personnel (GS-13/14) program
- C. Procedures to adjudicate problems
 - 1. Designate points of contact, e.g. start with RADM Shapiro & Evan Hineman, OWI

- 25X1A 2. Use [] as specific case to work out procedure
- Recommend start with temporary CIA/Navy panel to lay out problems

NOTE: ORCON caveat gives Navy ability to control further dissemination.

3. SSBN data

NAVY review(s)
completed.

S E C R E T

Beneath this sheet are:

1. OWI/OSI/OSR response to DCI's [] cable. 25X1A
